## WHY NATURE?

Nature Footwear is a small family business with over 100 years of collective experience in the footwear industry. Over the years they've learnt a lot about the importance of design for the health of our feet, and materials for the health of our planet.

With designs that prioritize the natural shape of the foot and made from natural materials such as chrome free leather, suede, natural rubber and cork; their skilled artisans in Portugal use their years of experience to bring those designs to life.

We are proud of our products and the thought and care that goes into making them. We bring the same quality to our sales and service.

*Minimum order value \$1000. Wholesale prices exclude GST.

## FOOT-SHAPED

Why are shoes generally not made to fit the shape of your foot?  
The human foot is a strong and complex mechanical structure containing 26 bones, 33 joints and more than 100 muscles, tendons and ligaments.

Shoes should be designed with this in mind, from having the foot as the base for designing. Nature shoes was then developed by working closely with podiatrists and shoe experts.

Slip into a pair of Nature and feel the difference.

# Alba - 1031

Sizes: 36 - 42

With a classic moccasin style design and a supple, chrome-free suede upper, Alba is a transeasonal wardrobe essential. Lightweight and durable. These podiatrist approved shoes are handcrafted in Portugal and designed to support your natural foot shape.
